Professional Summary

Java Developer with 9 months of internship experience building enterprise web applications and REST APIs using Java, Spring Boot, Spring MVC, JDBC and MySQL. Strong in OOP, Collections, SQL and layered MVC architecture. Comfortable with Git, Agile teamwork and debugging, with two Spring Boot backend projects built on Spring Data JPA and Spring Security.

Technical Skills

- **Programming Languages:** Java, SQL
- **Backend & Frameworks:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, REST APIs, JDBC, JSP, Servlets, Microservices, Hibernate
- **Web Technologies:** HTML5, CSS3, Bootstrap,JavaScript
- **Database:** MySQL, SQL, Relational Database Management
- **Tools & Platforms:** Git, GitHub, IntelliJ IDEA, Eclipse, VS Code, Apache Tomcat, Spring Tool Suite, Postman
- **Core Concepts:** OOP, Collections Framework, Exception Handling, Multithreading, MVC Architecture, CRUD Operations, Database Integration, Authentication, Form Validation

Experience

Java Developer Intern | VibrantMinds Technology Pvt. Ltd., Pune | Jan 2026 – Sep 2026

- Built enterprise web applications using Java, Spring Boot, Spring MVC, JSP and Servlets, following MVC architecture.
- Developed RESTful APIs and backend business logic with Spring Framework, including validation and exception handling.
- Implemented database-driven features with JDBC and MySQL, writing optimized SQL queries.
- Delivered CRUD operations across multiple application modules (add the number of modules).
- Implemented authentication and form validation to secure application access.
- Integrated HTML5, CSS3, Bootstrap and JavaScript frontends with backend REST services.

Web Development Intern | TechnoHacks Internships Program | Oct 2023 – Nov 2023

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Implemented UI layouts and styling using CSS to improve page responsiveness across devices.

Projects

Job Portal Application *Technology Stack: Java, Spring Boot, Spring Data JPA, Spring Security, REST APIs, MySQL, Postman*

- Built a recruitment platform connecting job seekers and recruiters, using **Controller, Service, and Repository** layers.
- Implementing **job posting, job searching, and job application management** features for recruitment process.
- Developed **RESTful APIs** for registration, authentication, job posting, job search and application management.
- Secured endpoints with **Spring Security and role-based access control**.
- Modeled **JPA entity relationships** between users, jobs and applications on **MySQL**; tested APIs with **Postman**.

Student Course Management System *Technology Stack: Java, Spring Boot, REST APIs, JPA, MySQL, Postman*

- Built a layered backend with full **CRUD operations** for students, courses and enrollments through RESTful APIs.
- Designed **JPA entity relationships** between students and courses using **Spring Data JPA** repositories.
- Added **request validation and exception handling**; tested all endpoints in **Postman**.

Education

- **B.E. in Computer Science & Engineering** – Sant Gadge Baba Amravati University **2025|CGPA: 8.35**
- **HSC (12th)** – Shri. Shivaji Junior College of Science, Darwha **2021|83.20%**
- **SSC (10th)** – U.S.K. Girls High School, Darwha **2019|86.50%**

Certifications

- **Java Full Stack Development** – VibrantMinds Technologies Pvt. Ltd.
- **SQL (Intermediate)** – HackerRank
- **Responsive Web Design** – freeCodeCamp
- **Digital Skills: Artificial Intelligence** – Accenture

Achievements

- 4-star rating on **HackerRank**; solved 50+ problems on **LeetCode**.
- **Smart India Hackathon 2023**: part of a team that built and deployed a software solution as backend developer
